

Replace HP LaserJet toner cartridges

Replace depleted toner cartridges with genuine HP toner cartridges.

Replacement cartridges and other supplies can be purchased from the [HP Store](#).

NOTE: Help HP recycle Original HP ink and toner supplies into new products and avoid sending them to landfills. Go to [HP Planet Partners - Supplies recycling program](#) to get started.

Install the replacement toner cartridge

Replace the cartridge when toner levels become too low and the cartridge no longer yields acceptable print quality.

1. Make sure the printer is off.
2. Open the cartridge access door, and then remove the used toner cartridge from the printer.
3. Remove the new cartridge from its packaging.

CAUTION: To prevent damage to the cartridge, hold the cartridge at each end. Do not touch the protective cover or roller surface.

4. Place the used cartridge in the bag and box for recycling. To recycle the used cartridge, go to [www.hp.com/go/recycle](#).

CAUTION: If toner gets on your clothing, wipe it off with a dry cloth and wash the clothing in cold water. Hot water sets toner into the fabric.

5. Remove the cover from the new cartridge.
6. Some cartridges might need to be gently rocked back and forth to distribute toner. Check the instructions that came with the new toner cartridges for any special steps.
7. Install the toner cartridge.
8. Close the cartridge access door.

To find instructions specifically for your printer, go to [HP Customer Support](#), enter your model number, and then look for cartridge replacement instructions in the "How To" section.
